A FITTING END.

Gov. Flower's political career, so near its end, might fittingly close with his act of yesterday in dismissing the charges against Brockway. Nothing that he has ever done has more become the character he has established. The decision did not need his signature to certify its genuineness. It was stamped all over with the insignia of petty. pompous ignorant obstinacy which is the sign manual of the Governor's character. It reeks with the owlish wisdom that corrects a blunder by repeating it. It is filled with the Falstaffian saplence that recognizes public sentiment by defying it

As to the merits of the matter, they are sufficiently settled by the report of ludge Learned, the Chairman of the Commission, and the one man on it best weigh properly the evidence presented. His report, confirming, as it does, the previous unanimous report of the State Board of Charities, vindicates in the fullest manner the position taken by "The World."

It is unfortunate that Roswell P. Flower's power has continued long enough to enable him to confirm to Brockway a slightly longer lease of authority to torture and abuse, but this temporary thwarting of justice is merely annoying not serious. The new Constidestroy's Brockway's absolute power, and will put him under the control of the State Prison Board, even if, by hook or crook of political intrigue, he cceeds in clinging longer to the form of power.

THINGS THAT ARE FUNNY.

It is funny to see a big Police Captain put on trial for receiving a barrel of apples and a barrel of peaches as a ribe, when it is known that the pric of a Captain to a disorderly house has been five hundred dollars initiation, fifty dollars a month and a present at Christmas time.

It is funny to find the General Term of the Supreme Court hearing argument on motion to set aside the judgment of the Police Board dismissing a Captain and two ward men from the police force for bribe-taking, and to restore them to office while the Grand Jury in another kway can now take his stand with part of the Court-House is finding orim-her chaps who have been "vindi- inal indictments against them for the same offense.

It is funny to find the Lexow Commit tee hunting witnesses to prove what scores of other witnesses have proved already, that the police have received money from pool-rooms, faro banks, dis orderly houses and green-goods dealers, while Police Commissioners, Police Su perintendent and Police Inspectors who have known of the systematised black-Platt rises to remark that he is still mall operations of the force all along are the Republican High School. left unquestioned as to Who Got It.

"Notoriety" is from Harrigan's own pen, and while it has a few of the vivid pictures that were seen in his earlier works. It is by no means up to the mark. Those who saw Harrigan's recent revivals of the clever, rollicking good-natured efforts of a decade ago will see where "Notoriety" is weak Harrigan's spontaneous fun has not bubbled, and he has substituted puns and some dublously humorous jeux de mots. He has no story to tell-no new types to introduce. His recent inclination for society scenes has again been indulged in, and we see most of our old friends amid "swell" surroundings that become them not. "Notoriety," moreover, is incoherent as to story, if there be any story at all to it.

There are, however, bright features in "Notoriety." The best of them all is the character of Molly Malone, a "dealer in junk, horses and stocks," contributed by Mrs. Annie Yeamans. Mrs. Yeamans is as intensely amusing as ever, and the remarkable facial contorttions which she exhibited caused much laughter. Mrs. Yeamans also indulged in some of her favorite stage hysterics, which, as usual clever sketch was that furnished Joseph Sparks, who appeared as Lida Bugbear, a colored lady with a past. Mr. Sparks is always entertaining, and his latest sketch is as good as anything that has ever done. The question was raised as to the expediency of lighting Central Park. The Superintendent suggests that two hundred naphtha lamps be placed in the Park in such localities as the Superintendent may suggest. The obstructions in the way of securing gas or electric lighting have led to the proposition to substitute naphtha.

Mayor Gilroy said, what is no doubt true, that two hundred lamps would be swallowed up in the Park and would afford but little adequate relief. This would be especially true if naphtha should be used.

The Park cught to be properly lighted.

A Bride's Ten Jacket.

In the trousseau of Lady Rosalle Bingham is a tea jacket made of an excellent piece of satin worn by the Duchess of Richmond at that famous ball at Brus-sels which preceded the battle of Waterloo. It was fresh and bright as any materials introduced this season and far finer in texture than most modern weaving. The color was a light yellowish green, and it was covered all over with every kind of flower, which, though minute, were perfect in each detail, being hand-embroidered in natural colorings. It had a full cross-cut basque, the back of the bodice having no seams, the sleeves large and puffed, with lace fusing matching the lace on the crossing fichu of lisse which trimmed the open bodice. There were huge looped bows of satin at the back of the neck, a most

One of the season's novelties is in the line of lamp shades, which have contributed so much that was bizarre to the furnishing of our rooms of late. This is made over a frame and is of stout, but transparent paper. This is out into the shape of great petals that are properly tinted and then glued together, so that they form a really very realistic tulip flower.

There is not a race of people that have as few privileges as the colored race, and particularly noticeable is the city of New York. Why is this? I answer, because it is so thoroughly overrum with ignorant whites.
